Dancing Above the Barre:

Creative Movement for Young
Children with Physical
Disabilities

Providing the opportunity to
overcome physical disabilities
and exceed self-expectations

OUR PURPOSE

This program will provide an opportunity for young children with disabilities to build their self-confidence, strengthen their bodies, create new friendships, and to live out a dream: the chance to be a dancer.

PROGRAM PROFILE

The program will consist of seven weeks of classes (one hour per week), culminating in a presentation. Participants will range in age from four years to twelve years of age, with modifications available for older and younger participants as well. Currently, there are no dance programs of this nature in the Greensboro area.

A local physical therapist serves as a consultant to develop a dance program specifically for young children with physical disabilities.

Each position or movement has modified versions available depending on the child's abilities and needs.

College student volunteers will serve as helpers. These helpers will attend a training session before the classes begin as well as a get-together with the dancers and their families to establish relationships before entering the dance classroom.

What You Need

Pink, black, or white
Leotard
Pink tights
Ballet shoes

We suggest:
Carolina Dancewear
1627 New Garden Rd.
Greensboro, NC 27410
856-9983

Program Cost

Dancing Above the Barre will cost \$67.50 per dancer. This price includes eight weeks of dance classes by a trained instructor and a final presentation.

Some financial assistance is available.

The Benefits of Dancing Above the Barre

- Stronger bodies
- More self-confidence
- New friendships
- Stage presence
- Increased musical knowledge
- Enhanced appreciation of dance and creative movement
- Eight weeks of classes, one hour per class
- One-on-one support for each participant—strong student-to-adult ratio
- Class presentation at end of session
